Beijing Emirates Company (BEC) is one of the leading construction companies in the kingdom of Saudi Arabia and the United Arab Emirates with a track-record of state-of-the-art landmark projects of various sizes and scope that have shaped its reputation for over **18 years**.

With its head office located in Dubai, BEC has engaged in high-end mega projects in both the Kingdom of Saudi Arabia and the United Arab Emirates.

Our company’s scope of work is diversified. It includes developing and building residential, commercial, hospitality and leisure complexes, as well as conducting infrastructure and landscape projects.
At a Glance

Our staff of over 5,000 highly qualified and experienced professionals includes engineers, technicians and experts in many other fields.

Our current portfolio consists of pioneering projects resulting from strategic alliances with the Ministry of Interior, King Abdullah Housing Foundation, Ministry of Education, and other governmental entities, with a total value exceeding USD 1.8 billion.

The latest addition to our portfolio is a milestone project in Jeddah, Saudi Arabia which consists of a mixed-use development on a 160-hectare plot with a value of approximately USD 1 Billion. We are also expanding our investments and our scope of activities by establishing and operating Ready-Mix Plants, Precast Factories, and up-to-date construction machinery.
Mission and Vision

**Our mission:** Is to meet & exceed our clients expectations through employing efficient construction practices & building long-term business relationships while continuing to adapt to the changing needs of our clients.

**Our Vision:** Dedicated to providing one step solution towards the construction needs of our clients by extending our varied expertise to accomplish our clients’ goals effectively and efficiently.
